

The Secret Agent

We've dumped it on our enemies and on ourselves. On the upland forests of South Viet Nam, on the dusty back roads of Southern Missouri, and in the Ironbound. And now the spreading awareness of **dioxin** - recognized as the world's most toxic man-made chemical - is creating a climate of fear, frustration and outrage among people across the United States and around the world.

The Secret Agent is the first comprehensive look at dioxin, the contaminant of the herbicide 2,4,5-T, a main ingredient of the defoliant code-named Agent Orange during the Viet Nam War. In all, more than 11 million gallons of Agent Orange were sprayed over the crops, the jungles and the villages of South Viet Nam. And while this film focuses on the tragic legacy of the American spray program, the scope of the dioxin problem - and of the film itself - is much larger.

The Secret Agent documents the extraordinary history of chemical warfare and agricultural herbicides...the damage to our environment...and the plight of people exposed to Agent Orange during the Viet Nam War.

Friday Nov. 11 7:30 P.M

Wolff Memorial Church

**Ann St. & Wilson Ave.
Newark, N.J.**

**Suggested Donation: \$3.00
\$1.50 for senior citizens & unemployed**
